WORK EXPERIENCE

Senior Software Developer   **Aug 2024 - Present**

Office of the Labour Commissioner (National Informatics Center)

- Serving as the Lead Developer for **Assam Transport Worker Social Security (Motor Shramik)** Portal designed to provide social security benefits to transport workers across Assam.
- Developed the portal using PHP Laravel framework coupled with PostgreSQL as the primary database to ensure robust, scalable, and efficient data management.
- Integrated Aadhaar-based e-KYC verification, SMS systems, and e-Shram database synchronization to deliver seamless digital services and real-time communication to beneficiaries.

Software Developer   **Apr 2022 - Aug 2024**

Land Revenue Department, Assam (National Informatics Center)

- Developed and maintained critical components of the **Dharitree** portal and **Mission Basundhara 2.0**, key applications within Assam's integrated Land Records Management System.
- Solely developed the **Zonal Valuation System**, a comprehensive application that standardizes official land valuation based on geographic zones to assist government authorities in taxation, land transactions, and urban planning.
- Utilized PHP CodeIgniter for backend development and PostgreSQL for efficient and reliable database management.

Software Developer   **Nov 2021 - Mar 2022**

Gratia Technology Pvt. Ltd l Guwahati, Assam

- Developed and maintained the Mising Autonomous Council Development Portal, Gratia Human Resource Management System (HRMS), and multiple government recruitment and internship portals, delivering robust, scalable web solutions that streamlined administrative processes and improved user engagement.

Jr. Software Developer   **Mar 2021- Oct 2021**

Otechnonix India Pvt. Ltd l Guwahati, Assam

- Created Aspirehr, a PHP CodeIgniter job portal system.
- Developed JKTiles, an inventory and stock management system using CodeIgniter.
- Maintained the College Management System for Patidarrang College.

LANGUAGES & TECHNOLOGIES

- **Programming Languages:** PHP , JavaScript, HTML5, CSS3, Bootstrap
- **Frameworks & Libraries:** Laravel, CodeIgniter, AJAX, jQuery
- **Databases:** PostgreSQL, MySQL, MongoDB, SQL query optimization
- **Version Control:** Git (branching, merging, collaborative workflows)

ABOUT ME

A dedicated and skilled Senior Software Developer with 4.5 years of experience in full stack web development, specializing in PHP frameworks like Laravel and CodeIgniter, and proficient in PostgreSQL and MySQL databases. Proven expertise in leading government digital projects, including social security portals and land records management systems, delivering scalable, secure, and user-centric solutions. Strong communicator and problem-solver with a commitment to leveraging technology for public service and administrative efficiency.
